COMPLIANCE EVALUATION INSPECTION

RE: Pennzoil-Quaker State Company (WVD055573745)

DATE INSPECTED: July 11, 2002

INSPECTED BY: David Farley

DATE PREPARED: July 30, 2002

PREPARED BY: David Farley

On July 11, 2002, an inspection was conducted at the former Pennzoil-Quaker State Company bulk fuel terminal at Charleston, WV. The site has been sold to the current operators, Etowah River Terminal. The current operators are generating a very minimal amount of paint waste and would be considered a Conditionally Exempt Small Quantity Generator. Pennzoil is doing some remedial investigation work at the site, and at this time needs to keep the RCRA I.D. for any hazardous waste that may be generated as a result of the drilling, core sampling, and possible excavation work. The company present in the complex now should be assigned ~~the EPA I.D. number WVD055573745 site B.~~ a new EPA ID # & listed as site B
